

Introudction:

AHRI recently established its Flammable Refrigerants Subcommittee. The mission of the AHRI Flammable with priorities and a timeline to complete the critical research toward the safe use of flammable refrigerants, scientific findings, and produce publicly available and technically sound references to support code and standards.

The Subcommittee’s first step is to survey relevant Committees and Working Groups to get input on the Working Groups. We would like to hear your input on any standing issues and gaps in research. We have a list of topics which you may include at the end of the survey. Your contact information will only be used if we have feedback for you.

Please return your completed survey form to AHRI Staff Xudong Wang at xwang@ahrinet.org by **July 10**.

Name:	
Company:	
Contact info (Phone and email):	

Name of the Committee or Working Group:		Note: If you are a member of a committee or working group, please provide the name of the committee or working group.

Survey Questions

1. What are the main knowledge gaps for the use of 2L flammable refrigerants for the committee if any?
2. What current research projects related to the flammable refrigerants within the committee or working group?
3. What relevant research related to flammable refrigerants has been completed but not yet formally incorporated into standards?
4. If you have other thoughts about the research needs of using A2L refrigerants beyond the above questions, please provide them here.

Thank you very much for taking your time to complete this survey.

The Refrigerants Subcommittee is to determine gaps in existing flammable refrigerant research and standards with a focus on 2L refrigerants. Through this effort, the Subcommittee will facilitate key standard activities related to the use of flammable refrigerants.

existing issues and research needs. We are contacting you because you are a member of or have prepared a brief survey, and would appreciate your response by **July 10**. We also welcome follow-up questions.

If you have any questions about the survey, please do not hesitate to contact Xudong Wan

If you are in multiple relevant committees and/or work groups, please create separate sheets for

What work groups are being conducted?

What work is being incorporated into the industry-wide standard(s) that your committee is working on?
