

Table of content

I. Context

1. Economic overview:

- GDP, inflation, building permits, interest rate: historical evolution and forecast

2. Regulatory developments:

- F-gas, EPBD, Ecodesign and other directives: recent development and their impact on the HVACR market

II. Cooling

1. Pictures of the European market:

- Cooling towers
- Dry coolers
- Dry coolers with adiabatic pre-cooling:

2. Challenges and trends 2030:

- Dry coolers vs Cooling towers
- Pad systems vs hybrid and simple spray
- ...

III. Refrigeration

1. Pictures of the European market:

- Coolers and condensers
- CO2 as refrigerant

2. Challenges and trends 2030:

- CO2 as refrigerant
- Ammonia as refrigerant
- ...

Table of content

IV. Thermodynamics

1. Pictures of the European market:

- Chillers
- IT Cooling
- Rooftops
- VRF
- Fan coils
- Chilled Beams

2. Challenges and Trends 2030:

- Chillers & Rooftops: cooling/heating type
- Chillers & IT Cooling: free cooling
- Chillers: compressors
- Magnetic bearing vs Centrifugal chillers
- Refrigerant trends across products, market reaction to EU F-gas regulations
- IT Cooling: DX vs Chilled Water
- IT Cooling: technology
- IT Cooling: overview of all products for data centres
- Rooftops: heat recovery
- VRF: Top flow vs Front flow
- Geothermal/water-cooled VRF
- Chilled beams vs Fan Coils
- ...

VI. Ventilation

1. Pictures of the European market:

- Air Handling Units
- Air Filters

2. Challenges and trends 2030:

- Global AHU market
- Integrated control systems
- Air flow
- Type of heat recovery
- Compressors & coils
- Filtration types
- HEPA filters
- New vs renewal
- ...

VII. Central MVHR

1. Pictures of the European market:

- Central MVHR

2. Challenges and trends 2030:

- Global MVHR market
- Air flow
- Residential building permits in EU27 in 2021-2024
- Heat recovery
- Enthalpy in central MVHR
- Re-heaters and pre-heaters in Europe
- Type of mounting
- ...
